

Special Recruitment Seminar for Early Career Scientists

“Tenure Track Assistant Professor Opportunities in National University of Singapore (NUS)”

Guest Speakers:

Prof Christina Chai, Head of Department of Pharmacy
Prof Rachel Ee, Deputy Head (Research)

Location: HCI J4

Date: November 25, 2019

Time: 15:45 – 17:00 PM

NUS, *the* premier university in Asia and the world, is embarking on a strategic renewal to boost research and innovation of one of the pioneering Departments in NUS, the Department of Pharmacy. The Department of Pharmacy, which was founded in 1905, is now recruiting tenured track Assistant Professors in *any* research areas that pertain to **Chemical Biology; Biology of Disease and Drug Targets; Pharmacology; Pharmacogenomics; Drug Delivery and Bioengineering; Pharmaceutical Technology and**

related areas. Professors Chai and Ee will provide information on the recruitment process, competitive salary and benefits package, and the generous start-up grant, as well as additional opportunities, such as the Presidential Young Professorship (PYP). This is an exceptional opportunity to join a vibrant research and teaching community of one of the best universities in Asia and beyond!

We invite all ETH Early Career Scientists to join us and learn about this exciting opportunity!
